AETOS™
WORK SMARTER

WORK SMARTER WITH AETOS™

Your safety, well-being and ease of work has been the top priority of our family business since 1972.

The Aetos™ brand supports thousands of people by reducing stress, fatigue and risks in their working life. Our slogan is our promise to you: we will help you Work Smarter™. To help people find more joy and better protection at work, and to equip them well so they can be their best – that's the power and the beauty of what we do.

Aetos™ is built on an unwavering passion for creating work shoes that fit perfectly and keep you comfortable for longer. The design integrity and production quality of our collections have created a loyal network of customers across a variety of industries. We believe in workmanship that speaks for itself and earns us the trust and recommendation of all people who want to Work Smarter™ and work and look like a pro – with Aetos™ footwear.

AETOSTM ALPHA

Dynamic Infinergy[®] cushioning to rebound your energy.

Go beyond with the Aetos[™] Alpha premium footwear range that features the world's leading foam compound Infinergy[®] by BASF.

You can now feel comfortable on your feet for longer and reduce the risk of physical strain and injuries caused by fatigue. Infinergy[®] not only dampens the shock impact on the foot and body, it also provides a rebound effect where you regain a large amount of the energy invested.

LIGHT FLEXIBLE MORE DURABLE

Antistatic (A) - Static Dissipative (SD)

The optional antistatic properties reduce the accumulation of excess static electricity by conducting body charge to ground while maintaining a sufficiently high level of resistance to protect the wearer from electrical hazard due to live electrical circuits.

Penetration Resistant (P) Puncture Resistant (PR) Midsole

The optional stainless steel or non-metallic midsole will prevent any sharp object from penetrating the boot through the sole. It is fully rust-proof and won't crack or split with flexing of the sole.

1. First-grade Nubuck Leather Uppers

First-grade Nubuck leathers, tanned with mineral salts for enhanced breathability as well as abrasion, water, oil and hydrocarbon resistance. Tested for superior durability and softness.

2. Breathable Full Internal Lining

Full liner with excellent breathability and moisture-management – even in climates with extreme humidity.

3. Steel or Composite Toe Cap Options (200J)

Optional steel or lightweight composite toe cap can withstand 200 Joules impact. Improved profile for an even better fit. Edge protector that prevents direct contact of the foot with the cap's edge.

4. Quick-drying Memory Foam Insock

Ergonomic insole absorbs shocks and improves the distribution of pressure and friction, with extra support on the heel and metatarsus. Being breathable and quick-drying, the insole provides optimal thermal comfort.

5. Flexible Insole Board

Antistatic material with excellent abrasion resistance, stitch-holding properties and flex perforations to the forepart.

6. Infinergy® Expanded TPU Midsole

Lightweight responsive foam with outstanding durability, resilience, and elasticity. Infinergy® adds extra cushioning, and prevents fatigue by providing ultimate rebound.

7. Reinforced Stabilizing Shank

Reinforced shank gives structure to the shoe and supports the arch, promoting a healthy posture and safe step.

8. Lightweight Polyurethane Midsole

9. Thermoplastic Polyurethane Outsole

Superior wear, oil and acid resistance while being lighter than rubber. Superior slip resistance on stainless steel and ceramic surfaces. With an additive to slow hydrolysis attack on soles in hot and humid climates.

Infinergy®

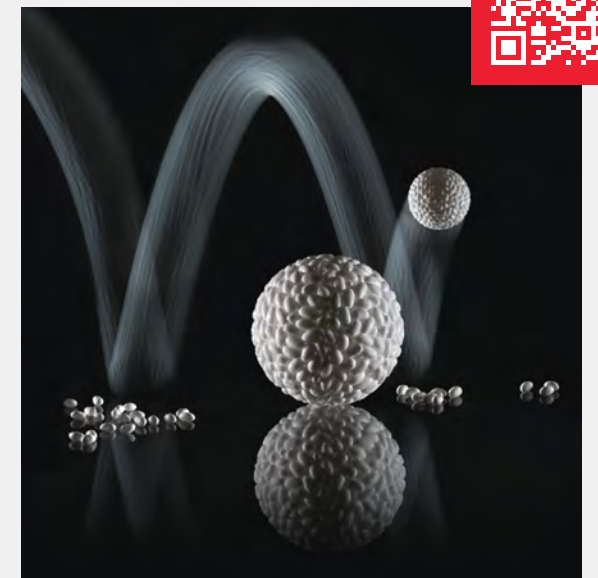

Made with
Infinergy®
by BASF

Anti-fatigue Midsole

The wear-resistant midsole of the Aetos™ Alpha premium range is made with the most advanced expanded TPU by BASF. This provides energy return while readily absorbing the impact of heavy loads. Infinergy® comfort compression technology also helps reduce fatigue for reliable all-day wear.

- >57% energy return
- Lightweight
- Super elastic for dual shock-absorption
- High abrasion resistance
- Good chemical resistance
- Long-term durable in a wide temperature range

Neptunium Freelock®

Ankle Lace-up 8" with Freelock®

Product Code: 819967

Features

- Dual density TPU/PU direct injection sole
- Cow Nubuck water resistant leather
- 200J toecap
- Airmesh internal lining, breathable
- Lightweight PU midsole with Infinergy® by BASF for greater shock absorption and energy return
- Freelock® wire closure system
- Adaptive memory foam insole
- SRC

Optional: Rubber Outsole. Antistatic. Steel midsole
Non-metallic toecap & midsole.

Available sizes: 4-13 (includes half sizes)

● Black ● Wheat

Uranium Zipper

Ankle Lace-up 6" with zipper

Product Code: 819866

Features

- Dual density TPU/PU direct injection sole
- Cow Nubuck water resistant leather upper
- 200J toecap
- Airmesh internal lining, breathable
- Lightweight PU midsole with Infinergy® by BASF for greater shock absorption and energy return
- Adaptive memory foam insole
- YKK zipper
- SRC

Optional: Rubber Outsole. Antistatic.
Steel midsole. Non-metallic toecap & midsole.

Available sizes: 4-13 (includes half sizes)

● Black ● Wheat

Terbium Freelock®

Ankle Lace-up 4" with Freelock®

Product Code: 819968

Features

- Dual density TPU/PU direct injection sole
- Cow Nubuck water resistant leather upper
- 200J toecap
- Airmesh internal lining, breathable
- Lightweight PU midsole with Infinergy® by BASF for greater shock absorption and energy return
- Freelock® wire closure system
- Adaptive memory foam insole
- SRC

Optional: Rubber Outsole. Antistatic. Steel midsole
Non-metallic toecap & midsole.

Available sizes: 4-13 (includes half sizes)

● Black ● Wheat

Terbium Zipper

Ankle Lace-up 4" with zipper

Product Code: 819868

Features

- Dual density TPU/PU direct injection sole
- Cow Nubuck water resistant leather upper
- 200J toecap
- Airmesh internal lining, breathable
- Lightweight PU midsole with Infinergy® by BASF for greater shock absorption and energy return
- Adaptive memory foam insole
- YKK zipper
- SRC

Optional: Rubber Outsole. Antistatic. Steel midsole
Non-metallic toecap & midsole.

Available sizes: 4-13 (includes half sizes)

● Black ● Wheat

A full-page background image showing two construction workers in safety gear (hard hats, safety glasses, and high-visibility vests) working on a construction site. One worker is in the foreground, looking towards the right, while the other is in the background, leaning over a structure. The scene is brightly lit, suggesting a sunny day.

AETOS™

WORK SMARTER

ENGINEERED FOR THE TOUGHEST CONDITIONS

Built with quality materials for maximum durability in Asian terrain and climate, our original Aetos™ boots will keep you comfortable under prolonged stress.

Whether you're in mining, transportation, construction or any other industry – we've got you covered with footwear that is purpose-engineered for the job and that helps prevent fatigue and keep your entire body healthy.

ALL-ROUND COMFORT AND SAFETY

1. Durable Leather Uppers

First-grade Nubuck leathers, tanned with mineral salts for enhanced breathability as well as abrasion, water, oil and hydrocarbon resistance. Tested for superior durability and softness.

2. Full Internal Lining

Breathable full lining for climate comfort.

3. Reinforced Heel Support

Reinforced heel counter provides ankle stability and extends the durability of the shoe.

4. Different Steel Toe Cap Fit Options (200J)

Impact resistance 200J and compression resistance 15,000N. Wide or slim shape.

5. Full Length Insock

Full length inner sole offers support and comfort.

6. Flexible Insole Board

Abrasion resistant, antistatic material with stitch-holding properties and flex perforations.

7. Reinforced Stabilizing Shank

Stabilizing shank between the heel and the forepart reinforces the shoe structure and supports the arch, promoting a healthy posture and a safe step.

8. Lightweight Polyurethane Midsole

Optimum underfoot cushioning and reduced overall weight.

9. Different Outsole Options

Aetos™ offers three different outsole designs to guarantee perfect fit for use. All options are abrasion-resistant and extra durable with high slip resistance.

Direct Injection General Purpose

Abrasion resistant TPU outsole for stability and extra durability, sole cleated pattern ensures a high slip resistance.

All Rubber Wedge Sole

Safety and style at an affordable price. Sole design for superior grip and 300°C heat resistance (HRO), suitable for factory/warehouse and tiled floors.

All Rubber Sole

300°C heat resistant (HRO) heavy duty sole. Suitable in muddy and wet areas.

Optional Extras:

- Antistatic
- Metatarsal Guard
- Toe Guard
- Penetration Resistant Midsole

Impact-resistant Toe Cap Options (200J)

Aetos™ Safety Footwear offer steel toecaps in two shapes.

The Sure Fit toe cap has a wide profile for a relaxed fit. It is designed with a Comfort Guard edge protector that prevents direct contact of the foot with the cap's edge.

Sure Fit toe caps are available for sizes 7 ½, 8 ½ to 13 (41.5, 42.5 to 48).

The Good Fit toe cap has a narrower shape for a slimmer shoe style. The Comfort Guard prevents direct contact of the foot with the metal edge of the cap.

Good Fit toe caps are available for sizes 4 to 8 (37 to 42).

Sure Fit Toecap

Good Fit Toecap

Lithium

9" Pull-on safety boot

Product Code: 813017

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Scuff cap, Antistatic

Available sizes: 4-13 (includes half sizes)

● Mocha ● Brown

Tungsten

6" Ankle lace-up safety boot

Product Code: 813018

Optional

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Scuff cap, Metatarsal guard, Antistatic

Available sizes: 4-13 (includes half sizes)

● Mocha ● Brown

● Black ● Wheat

Mercury

4" Ankle lace-up safety boot

Product Code: 813011

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Mocha ● Brown

● Black ● Wheat

Mercury + Zip

4" Ankle lace-up safety boot

Product Code: 813811

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200 J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- YKK zipper
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Mocha ● Brown

● Black ● Wheat

Copper

Elastic sided safety boot

Product Code: 813012

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200 J steel toe cap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole,
Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Mocha ● Black

Krypton

Hiker style ankle lace up safety boot

Product Code: 813088

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole,
Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Grey with red trim

Zinc

Slip on safety shoe

Product Code: 813003

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole,
Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Black

Cobalt

Lace up safety shoe

Product Code: 813005

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole,
Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Black

Xeon

Slip-on style safety shoe

Product Code: 813008

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Black

Neon

Lace-up style safety shoe

Product Code: 813007

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Black

Nickel

8" highleg lace-up safety boot

Product Code: 813016

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Black

● Brown

Argon

6" Velcro welding safety boot

Product Code: 825078

Features

- All rubber sole with 300°C heat resistance
- Buffalo full grain leather upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Steel midsole

Available sizes: 4-13 (includes half sizes)

● Black

Tungsten + Scuffcap

6" Ankle lace-up safety boot

Product Code: 813029

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Scuffcap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Black

Tungsten + Metatarsal Guard

6" Ankle lace-up safety boot

Product Code: 813028

Features

- Dual density TPU/PU direct injection sole
- Buffalo full grain leather upper
- 200J steel toecap
- Metatarsal guard
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Rubber outsole, Steel midsole, Antistatic

Available sizes: 4-13 (includes half sizes)

● Mocha

● Brown

Ozone

Lace up shoe

Product Code: 820606

Features

- All rubber wedge sole with 300°C heat resistance
- Cordura upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Steel midsole, Antistatic

Available sizes: 4-13

● Black

Helium

Ankle lace-up safety boot

Product Code: 820609

Features

- All rubber wedge sole with 300°C heat resistance
- Cordura upper
- 200J steel toecap
- Full internal lining
- Heel energy absorption
- Flexible insole
- SRC

Optional: Steel midsole, Antistatic

Available sizes: 4-13

S4G General Purpose

Waterproof safety gumboot

Product Code: 6168

Features

- PVC upper, chemical & oil resistant
- PVC nitrile outsole, chemical & oil resistant
- 200J steel toecap
- Heel energy absorption
- General purpose sole
- Wide tread base for extra stability
- Reinforced ankle, heel and instep
- Rear kick-off lug
- Knitted internal lining
- Full innersole

Optional: Steel midsole (S5G 6178)

Available sizes: 4-11

● Yellow

S4M Mining

Waterproof safety gumboot

Product Code: 6169

Features

- PVC upper, chemical & oil resistant
- PVC nitrile outsole, chemical & oil resistant
- 200J steel toecap
- Heel energy absorption
- Mining sole, self-cleaning angled cleats
- Wide sole pattern for extra ground contact
- Reinforced ankle, heel and instep
- Rear kick-off lug
- Knitted internal lining
- Full innersole

Optional: Steel midsole (S5M 6179)

Available sizes: 4-11

● Yellow

6-Month Manufacturer’s Warranty

This product is warranted from material and construction defects if sold in manufacturer’s condition for a period of six months from date of purchase. The warranty is only valid if in the opinion of the manufacturer the footwear has been used in appropriate conditions suitable for the particular type of footwear. It shall be void if in the opinion of the manufacturer it has been incorrectly fitted, abused and used in conditions for which it was not suitable. Some of these abusive conditions include and are not limited to exposure of chemicals, cement, lime and excessive water and heat (fit tor purpose). Abuse includes cuts, burns & excessive forces (such as kicking) being used in contact with the footwear.

Aetos™ Alpha and Aetos™ Original range safety footwear complies with the following certifications:

Aetos™ Wellington boots comply with the following certifications:
